Horizon Lanka Newsletter - January, 2009

MAHAVILACHCHIYA STUDENTS EXCEL AT ADVANCED LEVEL

All these girls have got the right marks at ALs but few will get the chance to go to universities.

Nine students have been selected to universities from Mahavilachchiya from the Advanced Level exam that was held recently. Six of these students have been ranked below 50 from the whole Anuradhapura district. Those six students have obtained A passes for all three subjects at the exam. Sidhhartha (6), Thakshila (2) and Saliyamala (1) public schools have produced those students. Some of these students also studied computers and English at Horizon Lanka. Though scores of other students also have qualified for the university literally, they will not stand a chance to enter universities due to the tight competition at the universities in Sri Lanka.

HORIZON LANKA RESUMES ACADEMIC ACTIVITIES

Academic activities for the year 2009 were resumed at Horizon Lanka Academy since mid December last year. Horizon Lanka has obtained the services of two experienced teachers for English ICT teaching. New students are joining every week for the new classes.

Miss Nicky from China visited Mahavilachchiya on the 26th of January and spent the whole day at Horizon Lanka with the students the following day. She taught students web 2.0 related tools and English. She taught both the youth and junior students at Horizon Lanka. Students enjoyed her company a lot. They are very excited about volunteers starting to come back to Horizon Lanka after the peace is established by the government during last year. More volunteers are planning to visit Mahavilachchiya in the coming months.
